Friday Benediction in the month of June

As in previous years, on the Fridays in the month of June during term time, (the 15th, 22nd and 29th June) the Children from Key Stage Two will come over to Corpus Christi Church at 2.45pm for Benediction.

June is the month of Corpus Christi, and this celebration of Benediction ensures that our children have a deeper experience of the Liturgy of the Church and a strong love and devotion to Jesus, in the Most Holy Sacrament of the Altar.

Mount St. Bernard's Abbey A CISTERCIAN MONASTIC COMMUNITY IN THE HEART OF RURAL LEICESTERSHIRE

St. Bernard's Abbey is a contemplative Roman Catholic monastic community of the Order of Cistercians of the Strict Observance set in beautiful, and peaceful grounds almost on our doorstep. We are organising a visit to this Abbey on Sunday 19th August as part of the preparations for the 40th Anniversary of St. Anne's Church. We will be departing Coventry around 12 noon that day. If you would like to join us, whether you are from St. Anne's or Corpus Christi Parish, it doesn't matter. The cost will be £7.50 per head, which includes a Crème tea in the Abbey grounds. For now, keep this date in mind. Mt. St. Bernard's is a and well worth a visit. Further details will follow soon.

Humanae Vitae 50th Anniversary

Humanae vitae (*Latin Of Human Life*) is an encyclical written by Pope Paul VI and issued on 25 July 1968. Subtitled *On the Regulation of Birth*, it re-affirms the orthodox teaching of the Catholic Church regarding married love, and responsible parenthood. 50 years on, read a fresh some of the Prophetic words of Pope Paul IV

Article 17. Responsible men can become more deeply convinced of the truth of the doctrine laid down by the Church on this issue if they reflect on the consequences of methods and plans for artificial birth control. Let them first consider how easily this course of action could open wide the way for marital infidelity and a general lowering of moral standards. Not much experience is needed to be fully aware of human weakness and to understand that human beings—and especially the young, who are so exposed to temptation—need incentives to keep the moral law, and it is an evil thing to make it easy for them to break that law. Another effect that gives cause for alarm is that a man who grows accustomed to the use of contraceptive methods may forget the reverence due to a woman, and, disregarding her physical and emotional equilibrium, reduce her to being a mere instrument for the satisfaction of his own desires, no longer considering her as his partner whom he should surround with care and affection.

Finally, careful consideration should be given to the danger of this power passing into the hands of those public authorities who care little for the precepts of the moral law. Who will blame a government which in its attempt to resolve the problems affecting an entire country resorts to the same measures as are regarded as lawful by married people in the solution of a particular family difficulty? Who will prevent public authorities from favouring those contraceptive methods which they consider more effective? Should they regard this as necessary, they may even impose their use on everyone. It could well happen, therefore, that when people, either individually or in family or social life, experience the inherent difficulties of the divine law and are determined to avoid them, they may give into the hands of public authorities the power to intervene in the most personal and intimate responsibility of husband and wife.

Limits to Man's Power

Consequently, unless we are willing that the responsibility of procreating life should be left to the arbitrary decision of men, we must accept that there are certain limits, beyond which it is wrong to go, to the power of man over his own body and its natural functions—limits, let it be said, which no one, whether as a private individual or as a public authority, can lawfully exceed. These limits are expressly imposed because of the reverence due to the whole human organism and its natural functions, in the light of the principles We stated earlier, and in accordance with a correct understanding of the "principle of totality" enunciated by Our predecessor Pope Pius XII. (21)

Concern of the Church

18. It is to be anticipated that perhaps not everyone will easily accept this particular teaching. There is too much clamorous outcry against the voice of the Church, and this is intensified by modern means of communication. But it comes as no surprise to the Church that she, no less than her divine Founder, is destined to be a "sign of contradiction." (22) She does not, because of this, evade the duty imposed on her of proclaiming humbly but firmly the entire moral law, both natural and evangelical.

Since the Church did not make either of these laws, she cannot be their arbiter—only their guardian and interpreter. It could never be right for her to declare lawful what is in fact unlawful, since that, by its very nature, is always opposed to the true good of man.
